Dodge City, KS 67801-2399

Admissions Procedures

Dodge City Community College has an open-door admissions policy with the following requirements for all Manufacturing Technology students:

1. Complete application for admission.
2. Send ACT scores (SAT are accepted). This is not required but highly recommended. Athletes must submit ACT or SAT scores.
3. Send high school transcript or equivalent (GED).
4. Send college transcript (if applicable).

The following two items are not requirements for admission but essential planning steps for some students:

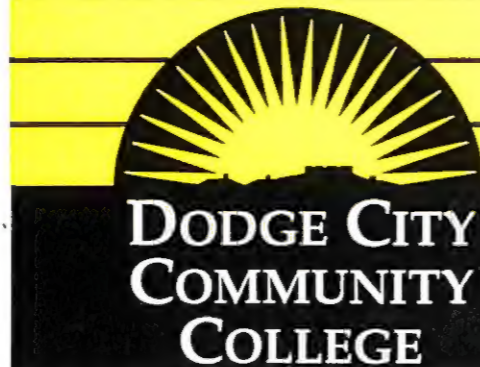

5. Submit a deposit to reserve on-campus housing.
6. Check into financial aid and scholarships. Make applications where appropriate.

High school seniors, with written permission from their principal, may enroll in classes for college credit.

Dodge City Community College is fully accredited by the North Central Association of Colleges and Secondary Schools and the Kansas Department of Education.

Manufacturing Technology Program

TECHNICAL EDUCATION

Careers in Tomorrow's Technology - Today!

Manufacturing Technology

The Dodge City Community College Manufacturing Technology Program combines state-of-the-art machine shop and welding applications to prepare students for a high-tech career in a manufacturing setting.

Training areas include traditional machine shop and welding machines, as well as use of CNC machines, hydraulics/pneumatics, and robotic technology.

Graduates of DCCC's Manufacturing Technology Program can enter a field of industry as a manufacturing technician, or go into other related fields such as machine maintenance, engineering or even management.

Jobs for highly skilled graduates are available anywhere manufacturing companies are located!

Career opportunities

Arc Welders
CNC Operators
CNC Programmers
Construction Welder
Job Shop Machinist
Job Shop Welder
Machine Maintenance Technician
Machine Setup Technician
Machine Shop Owner/Operator
Machine Tool Sales
Manufacturing Plant Maintenance
MIG Welders
Pipe Line Welder
Plasma Welder
Plant Manager
Production Supervisor
Production Welder
Quality Control/Inspection
Sales/Welding Equipment and Supplies
TIG Welding
Tool and Die Maintenance
Tool and Die Maker
Welding Rig Owner
Welding Shop Owner

Technology!**

Manufacturing Technology Program

Dodge City Community College's Manufacturing Technology Program

The Manufacturing Technology Program offers career training in two areas - Machine Tool Technology or Welding Technology. In each area the student can pursue either a vocational certificate or an Associate of Applied Science degree.

Advisory Council

The Advisory Council is composed of persons in industry who are interested in Dodge City Community College. They help us keep abreast of changes in industry, the demands of employers, and the future outlook for our graduates.

The Advisory Council is familiar with our college, our goals and our standards. They have hired our graduates in the past and know the results of our training. Several members of the Advisory Council use our training as a pre-requisite for employment.

Program Content

Drafting/Blueprint Reading
Measurement Hand Tools and
Gauges
Stock Cutoff Machines
Drill, Drill Fixture and Drill Bits
Welding Blueprints and Symbols
Introduction to Welding
Introduction to Lathe Operations
Introduction to Vertical Mill
Operations
Gas Cutting and Welding
Arc Welding
Introduction to Statistical Process
Control
Physics
Graphics
MIG Welding
TIG Welding
Plasma Cutting and Welding
Lathe Tooling, Speeds and Feeds
Lathe, Straight Turning
Lathe, Boring Bar
Lathe, Threading
Vertical Mill-Use of End Mill
Vertical Mill-Use of Indexing Head/
Table
CNC Programming and Machining

Financial Aid

Dodge City Community College has developed a variety of financial aid packages to assist students in overcoming economic problems associated with college attendance. DCCC accepts financial aid applications and makes decisions regarding those applications without regard to sex, race, creed, disability, or national origin.

Students who wish to apply for a Pell Grant or Stafford Loan must first establish their eligibility by completing their ACT Family Financial Statement and have their expected family contribution determined. It takes approximately four to six weeks to process an ACT Family Financial Statement. If a student is determined eligible to apply for a loan, it takes at least another three to four weeks for the loan application to be processed.

To qualify for any federal financial aid, a student needs to have a high school diploma or GED. Students who do not meet these requirements may arrange to take a vocational test to determine ability to benefit. Contact the DCCC Testing Center well in advance of the class starting date to arrange for testing.

Veterans who meet eligibility requirements may receive benefits for credit courses taken at the college. For more information call 316-225-1321, Ext. 208.

Any student with a financial concern is encouraged to contact the DCCC Financial Aid Director for additional information.
